MORE POLITICAL POWER TO WEST AND THE SOUTH

Increased Population Calls
for An Increase of
Representation.

By the Associated Press

WASHINGTON, Oct. 8.—The recent estimation of the final census figures of the country indicate that the west and south proportionately will gain more in a political way than the east or middle west through increased membership in the house of representatives, more votes in the electoral college and larger delegations to the national political conference.

As a result of the increase in population during the past ten years, fifty new seats must be added to the house to prevent any state from losing any part of its present representation. Should the present membership of 435 be left unchanged by increasing the basis of apportionment there will have to be a transfer of 13 seats now held by 12 states to nine other states.

During the last half century the precedent has been to increase the size of the house so as to prevent loss of exercising representation by any state.

If this precedent is followed this year five additional representative seats must be given to California, four each to New York, Ohio, Pennsylvania and Michigan, three to Illinois and Texas, two to Massachusetts, New Jersey and North Carolina, and one each to Alabama, Arizona, Connecticut, Georgia, Maryland, Montana, New Mexico, Oklahoma, Oregon, South Carolina, Tennessee, Washington, West Virginia, Arkansas and Minnesota.

While the present basis of apportionment is 211,877 inhabitants or its major fraction to the congressional district, congressmen can increase the basis to 219,427, without causing any loss. To advance beyond the latter figure will mean that Maine would lose one seat with the net result of 48 new seats in congress.

Congressional leaders are strongly opposed to any increase in the house as they regard the present membership of 435 unwieldy. By holding the house membership to 435, gains would be distributed with three to California, two to Michigan and Ohio, and one each to Connecticut, New Jersey, Oklahoma, North Carolina, Texas and Washington. To offset these gains Missouri would be forced to lose two congressmen, while Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Mississippi, Nebraska, Rhode Island, Vermont and Virginia would lose one each. All other states would retain their present numerical delegations in congress.

At the last session of congress some republican leaders expressed opposition to any change in the house that would be of profit to the south. However the new census does not indicate that the south can be effected without a corresponding effect on the states where the republicans might not be inclined to reduce the delegation.

Regardless of the apportionment basis the swing in political powers will be first toward the Pacific coast and Rocky mountain states followed by the south, east and middle west. California's big gain in inhabitants in the last ten years accounts for most of the swing toward the coast.

FLAG SERVICE FOR AMERICA'S HERO DEAD

By the Associated Press

WASHINGTON, Oct. 8.—President Wilson today directed that on Sunday, November 14, the American flag be displayed at half mast on all public buildings and naval and military posts as "a token of the nation's participation in the memorial services held for the heroic soldiers, sailors, marines and others who gave their lives to their country in the world war."

Sir Knights Attention.

There will be a special convocation of Ada Commandry No. 16, K. T. this evening at 7 o'clock for work in the Templar degree. All Sir Knights are cordially invited to attend.—F. C. Sims, recorder.

WEATHER

Saturday fair; warmer in extreme west portion tonight.

Bill Murray, Sage of Tishomingo, Abandons His Colony Project

OKLAHOMA CITY, Oct. 7.—William H. Murray, intrepid "Alfalfa Bill," the lone wolf of Oklahoma politics, back at his home at Tishomingo, Johnston county, Wednesday gave over the long distance two reasons why his dream of an American colony in Bolivia, South America, is a broken thing.

"A man, another Oklahoma, got between me and the river," said Murray for the first reason.

"Either I had to deceive my people into thinking I had an outlet to market, or give up the concession, and I chose the latter," was the second reason.

Murray announced that he would live quietly for a while now.

"I am thru with politics—afraid of it," he said over the phone when asked if he would attempt return to public life.

Murray announced Wednesday that his plan to take a colony, mostly Oklahomans, to Bolivia, where he had obtained a million-acre concession, had been abandoned.

His plan, under way for two years, called for the sailing from Galveston next February of about 250 families, and was one of the biggest colonization projects ever dreamed of by an American.

The prospectus of Murray's scheme, which was given broad publicity, showed possibilities of establishing in Bolivia a little empire of which Bill Murray would have been dictator.

Murray returned from South America about three weeks ago with the news of his plan's failure.

And it was Jim Wood of Geary, Okla., who started the Murray colony plan toward its breaking point.

"Wood went into Bolivia and obtained a concession between me and the river," Murray said over the phone. His voice was clear and snappy as ever. "When he did this, it cut off my concession from its natural river outlet to market."

"The only other way we had

to get to market was an overland road of 200 miles, which would have been an almost unsurmountable obstacle.

"But Wood got close to the Paraguayan boundary, and in a boundary dispute that arose between Paraguay and Bolivia, Wood's concession fell. It is now held by the Paraguayan government. Wood met some difficulty with the Paraguayans, but I think he got out of it very easily.

"There are a few Americans that live in the neighborhood of my concession in Bolivia, who raise cattle and seem to be prosperous. But most of the people who were signed up to go with me were intending to go into farming—they did not have enough money to do otherwise than till the soil. Without a good outlet to market they would have been ruined."

When Murray was organizing his colonists he announced that all their money would be held in escrow in a Tishomingo bank until they started on the trip.

He announced Wednesday that he would remain at Tishomingo.

Murray came into prominence as a democratic leader when he ruled the Oklahoma constitutional convention. His tactics of iron-handedness put him continually in the spotlight and aroused political enemies of such power that they finally effected his downfall.

Murray ran for governor in 1910. He was defeated. Then he was elected congressman-at-large and later from the third district. He was beaten by Congressman Tom D. McKeown who had the power of former Governor R. L. Williams behind him. Murray again ran for governor against Robertson, was again snowed under.

His bitterness against the democratic politicians had grown, and on this last defeat he put into action his long-dreamed plan to lead a group of faithful to a South American clime, where no political bickerings would mar his sway.

SAYS HARDING HAS BEEN SMOKED OUT

NEW YORK, Oct. 8.—George White, chairman of the democratic national committee, in a statement issued today, declared that the "democrats have smoked Harding out" and he has made the league of nations issue in the campaign clear.

"He has apparently scrapped the league and along with it the last reservation," White added.

"Also, frankly, I am amazed at Harding's reiteration in his Omaha speech yesterday of his statement 'I have a sympathetic feeling for Irish freedom.' I voted that way in the United States senate. He did this after voting to lay the resolution on the table and that failing to emasculate it. On the original resolution of sympathy for Ireland the record discloses that he dodged that vote by absenting himself from the chamber, and on every other seeking due consideration of the Irish problem voted 'no.'"

Carroll Finishes Reservoir

G. C. Carroll, who has been in charge of the construction of the big city reservoir near the brick plant, left yesterday for La Junta, Colorado, where he goes to take charge of another construction job for his company. Mr. Carroll is an engineer with J. E. Nelson & Sons of Chicago, general contractors and is a young man of many admirable traits. His home is in Charlottesville, Va., and while he is partial to his old home town he says that Ada is one of the best he has visited in a long while. Mr. Carroll made many friends among the young people of the city while here and they regret that it became necessary for him to leave so soon.

MacSWINEY SUFFERING WITH HIS HEART

LONDON, Oct. 8.—A bulletin issued by the Irish Self Determination league at 12:30 p. m. today said Terence MacSwiney, lord mayor of Cork, was suffering from trouble with his heart and was unable to hold a conversation with his relatives.

Only three patents were granted in the United States in the first year of the operation of the patent office.

COX 'KICKS IN' TO CAMPAIGN FUND

By the Associated Press

NEW YORK, Oct. 8.—Governor Cox, democratic presidential candidate, today contributed \$500,000 to the democratic national campaign, it was announced at headquarters here. At the same time it was stated that Governor Cox would speak here on the night of October 15, instead of at Toledo.

"Get the Money, Boys." Incidentally the public is learning some interesting facts about the manner in which drives for money are conducted.—Guthrie Leader.

Hippocrates speaks of the medicinal properties of opium.

CHAMPIONS

They featured the rapid world's series with headlines of crimson and flame, and the sports and the fans and the wearies went wild at the news of each game. They wrote yards of stuff for the winner of the high flying aeroplane race; folks read it for breakfast and dinner, through columns and columns of space, with extras and special edition, with verses and squibs and revamps, they labored to prove that their mission was to advertise heroes and champs. The football, the golf, and the tennis the king of the speed-mile the horse race, the heavyweight menace, they printed in elegant style. But down in a spot small and checkered, an item that scarce could be seen, they told how she broke the world's record—the girl with her typewriter machine. We know all the champions and fighters, the sprinters of glory and fame, the kickers, the wrestlers, the writers—but who can remember her name? Some day when our views have grown finer, when our visions and thoughts are less dense, perhaps we'll play up for top liner the champs who win things of some sense.

STRIKE HINGES ON ACTION OF THE COAL OPERATORS

Miners Await the Result of
Conference Before Taking
"Vacation."

By the Associated Press

MUSKOGEE, Oct. 8.—John L. Britton, vice president of the United Mine Workers of Oklahoma, Arkansas and Tennessee, expressed the belief today that the threatened "vacationing" of the coal miners will not commence until representatives of the miners and of the Oklahoma Coal Operators' association complete their conference, which opens at McAlester this afternoon. In the event the conference is able to reach an agreement on the increase in the price of digging coal and on yardage, the men employed at mines affiliated with the Oklahoma association will not engage in any unauthorized strike, it is stated. Vice president Britton left today for McAlester where he will meet President John Wilkinson and make a report on the Kansas City conference between the representatives of the miners and the representatives of the Southwest Coal Operators' association. Operators at this conference flatly refused to grant any advance in wages, over the present contract.

Last Minute Telegraph

Fifty Miners Quit Work.

By the Associated Press

TULSA, Oct. 8.—Fifty coal miners at the Hickory mines east of here failed to report for work this morning. They had given the management of the mine no previous notice of taking a "vacation." Union men said they were dissatisfied with the efforts to have their wages increased and had decided to lay off for a time. Miners of other coal mines operating near Tulsa were at work today.

By the Associated Press

LONDON, Oct. 8.—Twenty persons were killed and 30 others injured in a collision in which the Venice-Milan express was involved today, according to an Exchange telegraph dispatch from Rome based on advices to the Giornale d'Italia.

By the Associated Press

HUTCHINSON, Kans., Oct. 8.—Hutchinson's "bomb plot mystery" flickered out when it was determined later that the cylinder supposed to contain powerful explosives was only a discarded piece of fireworks.

By the Associated Press

WASHINGTON, Oct. 8.—Forecasts of production of the year of the country's principal crops estimated from their condition October 7, or at the time of harvest, were announced today by the department of Agriculture as follows: All wheat, 759,648,000 bushels; corn, 2,216,192,000 bushels, condition 89.1 percent; oats, 1,444,362,000 bushels.

Bank's Interior "Touched Up" To Queen's Taste

The interior of the Merchants and Planters National bank has been "touched up" to a queen's taste. Marble wainscoting has been installed throughout the building, matching the marble fixtures. The painters have finished their work, and the appearance has been improved one hundred per cent.

The M. & P. is one of the most progressive institutions working for the upbuilding of Ada and Pottawatomie county. The bank was established in 1908 as a state bank. It was nationalized in 1914, and its capital has since been raised to \$100,000. \$30,000 of this increase was paid in by the stockholders and the other \$40,000 was in stock dividends from the surplus fund and undivided profits.

Regular dividends have been paid to the stockholders each year in addition to the stock dividends and the bank now has a surplus fund of \$20,000. This speaks well for the nature of the service it has rendered. No institution depending upon public patronage can live and prosper if the service it gives is not one hundred per cent satisfactory.

The M. & P. employs a force of ten clerks and cashiers.

The Plymouth colony in Massachusetts introduced hemp growing in America.

MARRIAGE WON'T END CAREER, SAYS ACTRESS SECRETLY WED

Mrs. Gordon Sarre

The marriage of Ruth Shepley, well known actress, to Gordon Sarre, New York exporter, last July at New Haven came to light recently when the stage star confirmed the report of the secret wedding. Mrs. Sarre says the marriage will not end her professional career. She is to appear in "Wild Chicks" again later in the season. She has been starring in that play.

HURRAH! YANKEE HOBINSON HERE TOMORROW! FREE TICKETS AWARDED

Coming in with the morning dawn, the Yankee Robinson circus will arrive in Ada, traveling over the Santa Fe railroad. Before the great circus train stops rolling, bronzed men will be seen putting runways against flat cars. Down these steel runways will roll great red, blue and yellow utility wagons loaded with canvases, poles, stakes, dressing trunks, banners and other circus equipment. Great golden and silvered dens with their canvas covers protecting the wild beasts from the elements will trundle down runways. Stock cars will be opened and out will march in pairs Shetland ponies, Arabian, Hambletonian, Norman and Iowa Percheron horses, elephants, camels, zebras and other semi-domestic beasts, making one think of old Noah and his Ark.

The Iowa Percheron horses will be hitched to wagons and away the great caravans will go rattling to the circus grounds. Even the seats are built on wagons this season and offer an added comfort as each seat is provided with back and foot rests. The animals will be worked to the lots.

Before noon the green fields of early morning will be the site of a great canvas city. A jungle city, with all the mysterious airs of the orient, gay with banners announcing the sights and wonders to be seen in the different tents. From center poles flags of all nations will flutter. At night the multi-colored lights that festoon the grounds will lend a holiday atmosphere altogether new in Ada.

Yes Sirree, tomorrow is circus day—a joy day and there are going to be plenty of kids who are going to get all the fun there is in it. Among the many boys and girls who will wriggle, twist and giggle in their seats under the great billowing canvas will be twenty youngsters who by their cleverness and doing things on time, have won free tickets which the Evening News offered to boys and girls. They are: First prize of two reserved seats, Bobby Adair; second prize of two general admission seats, Cecil Price. And sixteen other youngsters won a general admission ticket each.

We again thank the boys and girls for taking part in the contest and the older folks for helping.

Some of the youngsters have gotten their tickets already. Remember the tickets are here in the News office waiting those who have not gotten them. Come in early in the morning and get them.

The parade is scheduled to leave

the circus grounds at 10:30 a. m. Doors to the main show open at 1 and 7 p. m., allowing patrons an hour in the animal tent getting acquainted with the animal actors before the performance begins an hour later.

The Best Letters.

The letters winning tickets to Yankee Robinson's circus were all good, many of them humorous to the last degree. The News can't find space for all the letters but we reproduce herewith the two letters winning the first two prizes of two tickets each. The first letter won two reserved seat tickets, while the second won two general admission tickets.

First Prize Letter. "My idea of the funniest thing a clown in your circus could be seen doing would be for him to impersonate the Chief of Police of Ada, Bobby Adair, Ada, Okla."

Awarded first prize by a committee of three disinterested parties.

Second Prize Letter.

"A clown boxing with himself. He rings a bell when to start and when to stop. He boxes three rounds and knocks himself out.—Cecil R. Price, Ada, Okla."

Awarded second prize.

Knott's Daylight Bakery Changes Hands Yesterday

The Knott's Daylight Bakery has changed hands again, Mr. Knott having leased the shop to Messrs. D. Hopkins and J. C. Koetting of Tulsa. These men are experienced bakers and will strive to give the best service possible. They will make a specialty of baking bread that pleases and of giving first class service to their customers. The shop has been leased for an indefinite period and they took charge yesterday. They have both been in the employment of the Camel Baking company for over a year at Tulsa, and have had several years' experience with other companies.

These men have come to Ada to make their home and are going to be boosters of the first class. They invite the people of Ada to come around and get acquainted and try the bread made under the new management. The bakery will continue under the old name of Knott's Daylight Bakery and all the old customers are cordially invited to continue their patronage.

There was but one crematory in the world in 1874.

MUST DEFEAT SENATE RING SAYS GOV. COX

Democratic Candidate Says
the Republicans Are
Reactionary.

By the Associated Press

PADUCAH, Ky., Oct. 8.—Effects of the presidential contest upon prospective United States supreme court vacancies was declared by Governor Cox in an address here today to be "the real danger of a reactionary victory, next to the scrapping of the league of nations."

The democratic presidential candidate stated that at least four vacancies of the high court were in prospect, and referring to the senate's control over confirmation and to Senator Harding as the "reactionary candidate," he added:

"It would naturally follow that a reactionary president would appoint four reactionary members of the supreme court."

The governor declared this was one of the reasons why the "senatorial oligarchy" should be defeated.

CONFEDERATE VETS. MARCH IN PARADE

By the Associated Press

HOUSTON, Texas, Oct. 8.—The soldiers of the Confederacy marched again today. There were not the countless thousands who tramped so buoyantly to battle more than a half century ago, but there were enough of them to make an imposing column—imposing despite the grey hair and stooped shoulders of the marchers, who made up in spirit what they lacked in physical strength and endurance. Many of the veterans in the parade by their determination alone kept their footstep from faltering and hundreds finished the march on will power rather than physical energy. Others were forced to drop out, while others were accompanied during the march by sons, daughters or boy scouts.

NO GAME TODAY, PLAYERS TRAVEL TO CLEVELAND

By the Associated Press

CLEVELAND, Ohio, Oct. 8.—Despite two defeats by the Brooklyn team, the Indians will receive a big ovation from thousands of Cleveland fans when the team reaches home to begin a four game series here beginning Saturday.

Mayor Fitzgerald gave an official aspect to the welcome home by issuing a proclamation calling upon Clevelanders to do honor to their team.

Drastic steps to check the scalping of tickets were taken by officials of the Cleveland club today following information from Columbus that two tickets for 'all four games' originally allotted to a Cleveland man had been sold for \$120 in Columbus. The original price on the pair of tickets was \$32.50.

UNREST

I know not whence it cometh, this microbe of unrest which round the wide world hummeth, a nuisance and a pest; this vague fantastic yearning, all ancient precept spurning, all calm reflection turning into a kicking fest. I say to my friend Jasper: 'You are a greedy jay; you rank and sordid grasper, you make ten plunks a day, your job is to your liking, you have no love for hinking; and yet you keep on striking and howling for more pay.' Then Jasper comes back smiling: 'You're loaded down with wealth, the deuces high you're piling, till they impair your health; and yet you keep on grabbing and grabbing and highbidding, new schemes for profit finding by fair means or by stealth.' Nobody can deny it—we are a restless race; the racket and the riot fill up much newsy space; from job to job we're flitting, we're playing and we're hitting; we leave our tasks of knitting to seek the kicking place. When we were busy warring we worked with vim and zest; we went about our chorine, and each one did his best; but now when grim war endeth and sweet peace homeward wendeth, on all the world descendeth the microbe of unrest.

ARDMORE PUTS BAN ON POOL HALLS

By the Associated Press
ARDMORE—So-called pool rooms and billiard halls will be no more in the city of Ardmore after November 1. At the meeting of the board of city commissioners held Friday night an ordinance eliminating these places was unanimously passed after the board had convened in executive session to discuss the matter.

The ordinance declares it to be unlawful to conduct or own any business commonly known as a pool and billiard hall or place in the city of Ardmore, providing a penalty for the violation of the terms thereof, making each day such offense is committed a separate offense, directing the city clerk to refuse to issue any license or occupation tax therefor, and declaring an emergency.

The ordinance provides that the owner and each and every employee of such a place which is run in violation of the ordinance is subject to a fine not to exceed \$20.

SAUERS TRAINED PIGS

With Yankee Robinson Circus This Year
Edw. Sauer and his trained pigs will again be with the Yankee Robinson circus during the season of 1920. This act is easily one of the greatest novelties ever presented in a wild animal circus. Farmers who daily attempt to drive pigs to any part of the pasture or who have ever had experience in handling them can guess whether Sauer had any trouble before he broke his eight pigs to do tricks and perform like humans. This act is with the big Yankee Robinson circus which appears here October 9.

Bet on Game—Go to Pen.

CHICAGO—The American league will ask congress at its next session to enact a law making betting on a ball game a penitentiary offense, President B. B. Johnson said in a statement issued today.

Grand jury investigation of alleged gambling by baseball players in last year's world's series and in the game between the Chicago and Philadelphia National league clubs August 19, will start Wednesday with a score of baseball officials, players and writers subpoenaed to testify.

Subpoenas for additional players probably will be issued before the investigation begins, said R. A. Replogle, who is working as prosecutor. He declared that Hal Shase, Leo Magee and Heinie Zimmerman, all former major league players, probably would be called.

Charges of alleged gambling which have been voiced against Magee and Chase would enter into the investigation, he said.

DIAZ HELD PRISONER BY GENERAL SANCHEZ

TLAPACOYAN, Mexico. — Felix Diaz, nephew of former President Porfirio Diaz, and leader of elements in the state of Vera Cruz, which have given government officials concern during the last few weeks, is a virtual prisoner of General Sanchez. He arrived at the camp of General Sanchez this evening from Hacienda Jobo, where he has been located since the beginning of negotiations with General Sanchez relative to a settlement of his demands upon the administration. It is understood that he will be taken to Vera Cruz.

NEAR CENTENARIAN CASTS HER FIRST VOTE

Miss James Randolph dropping her ballot in the box.

One of the women of Wood-bridge, N. J., who cast their first votes in the recent primaries, was Mrs. James Randolph, who will celebrate her one hundredth birthday next May. "One is never too old to begin," she said as she left the booth. "I won't say learn because I always have known how and was waiting patiently for the opportunity."

SCIENTISTS ARE PUZZLED OVER LATE QUAKE

By the Associated Press
WASHINGTON, Oct. 8—Frequent earthquakes in North and South America and Europe during the last few months have puzzled government scientists. They regard the disturbances as a geological anomaly for they say that the greatest seismic disturbance is known definitely to be in February, March and April. Their opinion coincides with that of Father Tondorff, director of the Georgetown University Seismic observatory.

The government scientists have not particular scientific reason to suggest for the frequency of the recent earth disturbances. They are making no special study of the earthquakes, and their opinion is that geology is too young a science and too little is known of it for anyone to attempt an explanation of the cause of the anomaly.

Geologists recognize that the earth's surface is in a state of continual unrest, and they explain that whenever the accumulated force passes the "breaking point" earthquakes follow. The disturbances which recently have occurred in three continents, are regarded by scientists as movements of the earth's crust and, yet they say

that some of the shocks may have extended to a depth of 200 miles.

MAN FOUND DEAD IN M'ALESTER HOTEL

McALESTER. — An unidentified man entered Kuehner's hotel Sunday and registered under the name of Jack Hall. Monday night he came back and requested that he be given the same room. Yesterday afternoon the chambermaid could get no answer when she knocked on the door, so the police were called and when the room was broken into Hall was found dead on the bed. There were no marks on the body and no sign of a struggle in the room. On a table were found several notes in German requesting that some lumber camp in South Dakota be notified of his death. The notes were presumably in the handwriting of the dead man.

THE F. F. DALLEY CORPORATION, LTD., BUFFALO, N. Y.

YOU certainly want to save money, and you would like to have better bakings.

Then use Calumet. It's the biggest thing you can do to improve the quality of your bakings—and lower baking costs.

Calumet is made in the largest, most sanitary Baking Powder Factories in the World. No Baking Powder is made under better conditions—none can be better in quality.

It contains only such ingredients as have been officially endorsed by the U. S. Pure Food Authorities. An absolute guarantee that it is pure.

RAISES THE QUALITY—LOWERS THE COST OF ALL BAKINGS

CALUMET BAKING POWDER

"BEST BY TEST"

It received highest Awards, World's Pure Food Exposition, Chicago—Paris Exposition, Paris, France—positive proof of its superior merit.

It is used by more housewives, domestic scientists and chefs than any other brand. That would not be the case, if it were possible to secure a higher quality leavener.

It is sold at a moderate price. All you have to do is to compare costs to determine how much you can save by buying Calumet.

A pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. cans instead of 16 oz. cans. Be sure you get a pound when you want it.

Calumet Cream Cake

Recipe

—3 cups pastry flour, 3 level teaspoons Calumet Baking Powder, 1/4 cup butter, 1 1/4 cups granulated sugar, Yolks of 3 eggs, 1/4 cup cold water, Whites of 3 eggs, 1 teaspoon orange extract. Then mix in the regular way.

Sanitary Survey To Be Made of Ada's Sewer System

A complete sanitary survey of Ada's sewer system and water connections is to be made in the near future under direction of Johnson & Benham of Kansas City. Major W. L. Benham, a member of the firm, is the city engineer for this city.

"The plan is to find those places where the sanitary sewers have been

connected with storm sewers," Major Benham says, "so that we may improve the system."

Major Benham also stated that a revised map of the city is to be made by his firm, designating all important points in the city, naming owners of property and indicating factories, business places, etc.

Service and Gasoline.

The Ada Service and Filling Station is running a series of ads relative to gasoline prices and service. It will be worth the while of automobile owners to fol-

low them. This station is rendering a splendid service to auto owners and everyone should be proud indeed of such a business, which is here for their convenience.

SENATOR HILL TAKES TRANSCENDERS TO TASK

McALESTER, Oct. 6.—Characterizing the statement that he bolted the democratic ticket as absolutely false, Senator E. P. Hill, of McAlester, a staunch supporter of Senator T. P. Gore in the recent primary, vigorously asserted here today that not only was he heart and soul for the entire democratic ticket, but that he was active in his support of this ticket and would continue his activity until the close of the polls.

"It has come to my attention," Senator Hill declared, "that the republicans are stating that certain state senators including myself were bolting the democratic ticket and had tendered their support to the republican campaign committee."

"This is not only a gross misstatement of facts as to myself but is totally unfair to Senator Gore and his eighty thousand supporters. There never was the slightest foundation for such a statement. Ever since the primary I have been active for the democratic ticket and time my activity until the polls close."

"I have tendered my services to the state democratic committee to be used in any section of the state for the success of the ticket from president to constable, and in Pittsburgh county you will find that former supporters of Senator Gore are in the front of the democratic organization."

There is absolutely no dissension among the democrats here and Pittsburgh county will return a larger democratic majority than usual. Personally I have the most confidence and esteem in my good friend Scott Ferris, and even though I did support his opponent in the primary I am willing to abide by the decision of the Oklahoma democrats and lend my humble efforts in behalf of my party. It is a deplorable fact that the republican organization is doing its utmost to bring dissension in the ranks of the party, and although I have not consulted with the other democratic senators whom the republicans claim are ready to bolt their ticket, I feel sure that they are being misrepresented by the republican propaganda just as I have been. To correct these false statements and to further state that my time and efforts and humble means are at the service of my party and its representatives."

Wool Trimming for Hats.
For fall, crocheted and embroidered wool trimming for hats will be more widely used than ever. Stiff geometric designs embroidered on felt, duvyn, and velvet in all colors, it is said by designers, will be fashionable.

Wool embroidery on a net foundation if it is slightly raised, gives the effect of having been crocheted instead of worked thru the material.

Barrel muffs are to be worn this winter. Dressmakers evidently are preparing for emergencies.

The Washword of a Nation

Oh, It Washes
Everything!

Charming little afternoon gowns, voiles, dotted Swiss, and even hand worked underthings are just as safe in the THOR as the coarser household fabrics.

The white maple cylinder revolving and reversing for fifteen years has proved the superiority of the Thor.

SEXES NEARING EQUALITY SAYS PSYCHO EXPERT

CHICAGO.—The two sexes are coming to a point of equalization, in the opinion of Dr. E. N. Schoolman, psychoanalytic expert, expressed in an interview.

Men are becoming more effeminate and women more masculine, Schoolman said. However, he doubted if there was danger of either sex going to the extreme in adopting the other's mannerisms.

"I don't believe women will ever supplant man," he said. "I think the situation will be readjusted some way."

Schoolman pointed to the increasing number of men who are taking positions as servants and doing housework as evidence of the tendency of men toward effeminateness. "I don't mean to intimate that all men who do housework are effeminate because of economic reasons. But there are particular cases where men are doing housework to satisfy their craving for things effeminate."

The ease with which the necessities of life may be obtained without the use of muscle in open competition with other men, causes a trend among men to become effeminate."

On the other hand, Schoolman said women are balancing the situation by a tendency to become masculine."

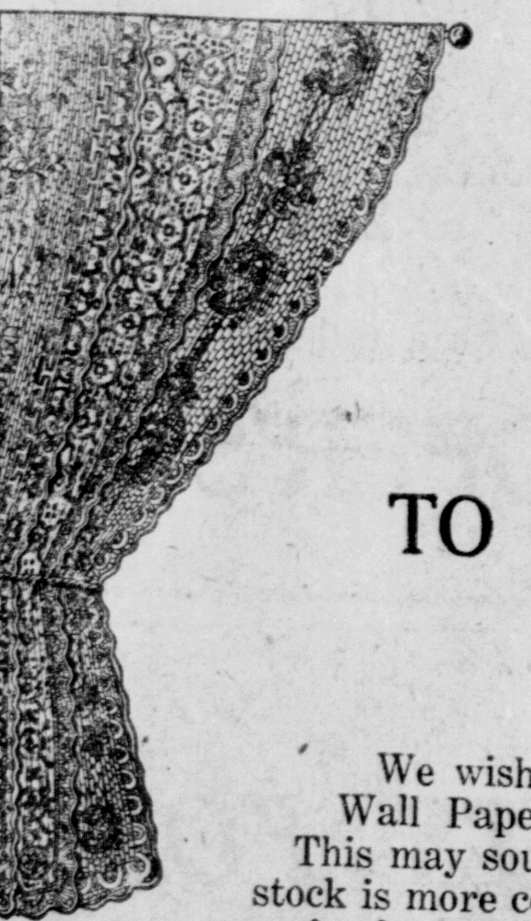

"When you put a woman in the position of a man. She must assume the characteristics of a man," Schoolman said. "She can not remain passive but must assume an aggressive attitude."

Not So Pretty.
"Going out for the hockey team, Bill?"

"Naw, every time I get on a skate it brings back old times and I lose all interest in the game."

COAL COUNTY WOMEN DEMOCRATS ORGANIZE

COALGATE, Oct. 7.—Organization of women's democratic central committee for Coal county was perfected at an enthusiastic meeting here last night. Addresses were delivered by Miss Cora Smith of Oklahoma City, Judge George Trice of this place, Mrs. Dora Trexler of Sapulpa, and Hon. Lee Cruce, former governor of Oklahoma. Mr. Cruce devoted his talk to a vindication of the league or nations.

The meeting was held in the Hunter Wheatley tabernacle, and was opened with a chorus of thirty-two voices from the high school. E. N. Holland, chairman of the county central committee, presided.

Mrs. Lehr was elected chairman of the committee.

GOVERNOR COX RESUMES HIS SPEAKING TOUR

Enroute With Governor Cox

Oct. 7.—With a number of speeches through Kentucky and Tennessee Governor Cox today resumed his personal speaking campaign to continue virtually until election day.

Opening his campaign with an early morning address at Elizabethtown, the democratic candidate was to speak several hours at Bowling Green this afternoon and be the central figure of a mass meeting tonight at Nashville, Tenn. Several rear platform addresses today were also contemplated and tomorrow the governor will visit more Kentucky cities and end his tour in the state tomorrow night at Louisville. The league of nations issue was brought into Kentucky by the governor as the "premier issue to be championed by democracy and a thrust at the

opposition. With its moral aspects of domestic relations in an address uppermost, material interests also at the sixth biennial session of the were to be outlined by the governor.

TO THOSE WHO TAKE PRIDE IN THEIR HOME

We wish to announce that we have the largest exclusive Paint, Wall Paper and Drapery establishment west of the Mississippi River. This may sound egotistical, but we have it from good authority, that our stock is more complete and up to date in every department, than you will find even in the larger cities.

Wall Paper of every conceivable design, in fact we purchased a car of Wall Paper some time ago, and now have the greatest assortment from which to make your selections it has ever been possible to offer before and prices are very reasonable, too.

Draperies, Curtains and Upholstering Materials

Curtain Nets in many beautiful designs, Woven Madras in all wanted shades to blend harmoniously with other furnishings, Kapocock Silks in solid shades for side drapes Cretonnes in all their lovely shades and Veltone for the portiers. This is truly a wonderful display of DRAPERIES and well worth your time to inspect.

PAINTS AND VARNISHES

Your house will stand the rough winter weather much better if given a fresh coat or two of PAINT. We handle and recommend the celebrated line of COOK'S PAINTS and VARNISHES, not only the wood preserver for the exterior but the inside finish that gives the home a refined appearance. Our prices are consistent with good quality.

ART GOODS

In this department we feature a complete line of mouldings from which we make frames for all classes of pictures.

Our line of high class pictures, reproductions from the old masters, such as the "Famous Garden of Allah" and others equally as noted are now on display.

PLATE GLASS, WINDOW GLASS, PICTURE FRAME GLASS and GLASS FOR YOUR CAR WIND SHIELD. PAINT and VARNISH BRUSHES.

All we ask is careful inspection of our stock and a chance to figure your bill.

FARMERS, WATCH YOUR COTTON

No farmer wants to see his cotton crop this year, which cost more than any other cotton crop ever grown, beaten down by speculators and middle men who are taking advantage of the usual situation at this season when more cotton may be offered for market than there is an actual need for. If farmers go complacently along, ginning and selling their cotton as fast as it is picked, they are playing into the hands of speculative interests and are running their own prices down. A merchant could dispose of his whole year's stock of goods within the course of three months if he were willing to mark his prices down low enough to induce people to take them at that time, and hold them for future use. By keeping such supplies on hand as are necessary to meet the needs of his customers, however, and not forcing his goods on the market, he is able to maintain throughout the year profitable prices on his sales. It is a fundamental business principle that the farmers must observe, and unless they are going to stand heavy losses they must take action on this right away.

If the farmers and the actual consumers of cotton, the spinning mills, the automobile tire companies, etc., can get closer together and the farmer sells just as much cotton as these consumers need and at the time they need it there is no fear but that cotton will continue to be the "king" of cash crops. If, however, the cotton is rushed on the market during the next three months in greater quantities than these consumers can use, speculators will buy it up at low prices and in turn sell it to the spinners as they need it and make their large profits.

The time to put cotton marketing on a business basis is now and not next spring or even next month. The farmers of the south can organize by states and market their cotton through one organization properly directed by business men. There is not a town in the south where a warehouse that will be satisfactory for the storing of the cotton cannot be secured or quickly constructed. As their cotton is picked out and ginned, farmers should put it into storage houses to be sold as the consumers demand it. They should then call on their leaders from the governors down through the commissioners of agricultural colleges to form such an organization in cooperation with other states as is necessary to secure sufficient credit for holding the cotton and to market it for its full value.

THE LEAGUE TO PREVENT WAR

Every member of the League of Nations solemnly agrees that it will never go to war without first having done one or another of two things, without either submitting the matter in dispute to arbitration, in which case it promises absolutely to abide by the verdict, or, if it does not care to submit it to arbitration, without submitting it to discussion by the council of the League of Nations, in which case it promises to lay all the documents and all the pertinent facts before that council; it consents that that council shall publish all documents and all pertinent facts, so that all the world shall know them; that it shall be allowed six months in which to consider the matter; and that even at the end of the six months, if the decision of the council is not acceptable, it will still not go to war for three months following the rendering of the decision.

It is provided in the covenant of the League of Nations that any nation that disregards these solemn promises with regard to arbitration and discussion shall be thereby deemed ipso facto to have committed an act of war against the other members of the League and that there shall thereupon follow an absolute exclusion of that nation from communication of any kind with the members of the league. No goods can be shipped in or out; no telegraphic messages can be exchanged; there shall be no communication of any kind between the people of the other nations and the people of that nation. There is not a nation in Europe that can stand that for six months. Germany could have faced the armies of the world more readily than she faced the boycott of the world.

The Springfield Republican quotes Senator Moses as saying that the next war is coming and he is ready to welcome it. The senator is at least consistent in his opposition to the League of Nations.

Though they are not very numerous, the wealth of the American Indians is estimated at \$900,000,000. The appropriating white man left them in possession of that much, anyhow.

The New York actress charged with belonging to both the Cox and Harding clubs can point to precedents in the theatrical profession for playing two parts.

According to W. L. George, the British feminist, "every man who can support a woman can get a wife." Perhaps—even in these times—but there are wives and wives.

ALLAH! ALLAH!
WE ARE OFF!

The Smiling Recorder of India Felicitates Ada's Nobility.

Leslie H. Swan, the genial, good natured recorder of India Temple, Ancient, Arabic Order Nobles of the Mystic Shrine, sends the "Ada Evening News," and through it the nobility of the city of Ada and the county of Pontotoc, happy felicitations and predictions of a great meeting of Shriners at Ada on the afternoon of October 27, and a great ceremonial at Sulphur on the evening of October 28. The meeting at Sulphur will be an adorned meeting of the Pontotoc county Shrine club, at which one of the biggest and best ceremonials in the history of India Temple will be held unless all signs fail.

As previously announced the official divan of India will arrive in Ada at 2:40 in the afternoon of the 27th, by special train over the Frisco and will remain here until 1:30 in the morning of the

LESLIE H. SWAN
Recorder of India Temple, A. A. O. N. M. S., first among his peers and a Shriner "From Head to toe."

28th, when the special train will leave for Sulphur, carrying the officials and all Pontotoc county Shriners, wives and sweethearts who care to make the pilgrimage.

Mr. Swan states that he is getting most favorable reports from the members in all parts of the county and that all are expecting a great meeting and a jolly good time. He urges that every member make it a point to get every application possible, as it is on the result of the campaign for "novices," that the success of the ceremonial depends in the last analysis.

This is an opportunity for the Shriners of Ada to show shinedom just what kind of a city, Ada is, and every member should make it a point to get busy at once and see that not a single detail is overlooked which would in any way add to the strength of the program or make the occasion more enjoyable for the membership.

Ye O'den Profiteer.
SPRINGFIELD, Ill.—A little girl found a peculiar looking piece of paper on the street here. She picked it up and took it to a newspaper office. There it was identified as an old legal document containing Abraham Lincoln's signature. The paper was a writ in assumpsit drawn by Lincoln and Herndon, attorneys, dated 1846. The writ quotes the price of corn in those days at 17 cents a bushel, which the document attacks as exorbitant.

State Press Comment

Durant Daily Democrat: A rather startling disclosure has come out recently in that one reason for the high price of sugar is that the American banks have been making large loans to Cuban sugar concerns, in order to enable those concerns to hold back the sugar. More than \$250,000,000 have been loaned in this way, and sugar users here are suffering as a result.

Vinita Daily Journal: A dispatch says: "Newsprint makers facing new probes." These "probes" may only result in more vicious goading of the publishers who have to buy their paper in the open market.

Daily Ardmoreite: News dispatches say that the 36 Oklahoma City retail merchants indicted for profiteering, have entered pleas of "not guilty." It seems that the list has now been checked up to the court and trial jury.

Pawhuska Daily Capital: Perhaps these folks who want to ride to the moon on the projected rocket think that the expedition is to be in search of moonshine.

Pawhuska Daily Capital: Any gallant husband will accompany his wife to the voting booth but that does not give him the right to say how she shall vote.

Muskogee Daily Phoenix: A ball player can't bet and keep his right hand in ignorance of what his left hand is doing.

Shawnee Morning News: Now it seems that the best theory as to the New York explosion is that a junk dealer was delivering explosives concealed beneath a pile of junk in his wagon and a collision with an automobile caused the explosion. If this is true some practical joker has been having a lot of fun with his subsequent warnings.

Shawnee Morning News: Just how much Washington really cares for a congressman is indicated by

the fact that the house occupied by Congressman Kahn of California was sold out from under him while away on the summer vacation and now he will have to live "in storage" until such time as some one will considerately permit him to live under a roof of his own. And yet Oklahoma is clamoring for more congressmen.

Pie Sale.
The public is cordially invited to a parcel post and pie sale given by the Woodmen Circle, Monday evening, October 11, at 7:30, at I. O. O. F. Hall. 10-8-20

SMART COATS FOR FALL

An Assemblage That Women Will Appreciate - In Quality and Money Saving

A decided preference is shown to soft supple fabrics that respond to artistic draping and permit the wearer to be completely enveloped in graceful folds. A pleasing style difference from that of previous seasons is the fitted line, in which number of interesting styles are designed, and resulting in a distinctly graceful silhouette.

Large luxurious collars of self made materials or fine fur lend interest to the new modes. The favorite materials are Corduvel, Chamoisine, Evora Superior and fine Velours.

Prices Range from

\$16.50 to \$187.50

Business Gives Pie Supper

A pie supper was given at the business college last night. A large crowd was present and a fine time was had by all. Miss Cleveland gave two very entertaining readings and the selling of pies followed. Mr. Coyer, of the normal, acted as auctioneer and filled that important office like a veteran. The features of the evening were the pies given to the ugliest man and the cake given to the most popular girl. Clifford Dorsey was voted by a large majority to be the ugliest man present and Miss Mattie Harris was awarded the cake. It was late when the pies had all been sold and eaten. The evening's entertainment closed with dancing.

The total amount taken in was \$35.95 and this money will be used for the purpose of buying equipment for the basketball team of the college. The following is a line-up of the material that the college has to select a team from: Chester Byrd, all state man last year; Charles Watson, played on normal team; Alonzo Stevens, played on normal team last year; Claud Simmons, B. C. Izard, Charles Vanhooser, Floyd Weldon, played Allen high school team; Virgil Lee Mr. Parsons and several other good men are planning on entering soon. The college plans to have one of the best business college teams in the state.

Home Economics Club Meets.

The first regular meeting of the Home Economics club for the school year of 1920-1921 was held yesterday afternoon in the reception room at the normal. The meeting was called to order at four o'clock by the president, Miss Corine Moore. The room was decorated with the class colors, blue and white, and the hostesses for the afternoon were Misses Grace Van Meter and Lola Russell, assisted by Misses Flora Summers, Ruby Goodnight and Mabel Jones. The program for the meeting consisted of several musical numbers and a reading by Opal Little. Following this was a general discussion of the main topic, "Our Club." Miss Mattie Perry then read a paper on "Its Past," and the president, Miss Moore, discussed "Its Future." The last paper mentioned was opened to general discussion by the club and a number of plans were proposed for the years work. After the business had been disposed of the club repaired to the dining room where refreshments of punch and wafers were served. The club then adjourned until the next regular meeting.

At the Ada Playhouses

At the American.

There's genuine fun and entertainment at the American Theater where William Desmond began his two-day engagement yesterday in "A Broadway Cowboy," by Byron Morgan. It lacks nothing in the way of comedy, thrills, romance and action. Desmond, who has never been seen to better advantage, plays the role of Burke Randolph, a matinee idol starring in a western melodrama. He meets Betty, a western girl attending school in New York, and love follows.

Burke has never been west. When his play goes on tour he is suddenly injected into the wild and woolly. The plot takes on added momentum and gets exuberantly funny when the sheriff, Betty's admirer from childhood, causes the actor's arrest. The tenderfoot breaks jail, gets mixed up with some bank robbers, is nearly lynched for stealing a horse he is more than willing to pay for, and otherwise is forced to conduct himself in the approved wild western fashion. All of which is a heap funnier to the audiences than it is to Bill Desmond and his admirable company of players.

At the McSwain.

"The Courage of Marge O'Doone," which will be shown at the McSwain Theater on Monday and Tuesday, is a vigorous, fighting story of primitive men and stout-hearted, beautiful women, fierce huskies and ma'emoes, red-blooded adventure and rare romance, surprise and suspense, mystery and thrills staged in the vast white arena of the frozen north. It has all the zip and zest, the drama and color in its scope of high lights that makes it just what it is—a prize special photoplay production. It is a classic of the north—a masterpiece of dramatic writing made into a masterpiece of a photoplay.

It is a gem of the genius of James Oliver Curwood. A born thriller, it travels swiftly and breathlessly along, studded with smashing incidents that keeps the suspense and anticipation on edge—makes you guess and guess wrong until the toppling and unexpected climax smites you. It never lags for an instant. One literary critic has proclaimed it a story ready made for the motion picture screen; another has called it hard to beat and declared it the best story that James Oliver Curwood has ever written.

Notice. All persons knowing themselves indebted to Jackson Brothers are hereby notified that statements of the accounts have been placed with W. F. Schulte at his office in the Guaranty State Bank building. Please call at once and settle for these accounts. JACKSON BROTHERS.

Local Automobile Dealers

The Ford garage reports a fine business this week. Since the drop in prices of Fords the business has increased. New cars are being delivered every day. The following cars have been delivered since last R. D. Williams, roadster; Newt Trout, Fitzhugh, roadster; A. F. Bean, Stonewall, truck; Rains grocery, delivery car; L. D. Jeter and son, Stonewall, truck; Albert Bound, roadster; Lee Laseman, Roff, roadster; W. H. Holmes, roadster; Cecil Riddle, roadster.

The car sales reported by the Crandall garage is a "chummy" to L. C. Lindsay. Repair business is good and the best service possible is being made the main feature.

Many of the garages report a decrease in the sale of cars for the last month but are confident that business will pick up after the crops have been gathered. This is a time of year when the car dealer has time to rest up.

Reports have been received that the price of several makes of cars have been reduced. The cars that have been reduced in price are the most popular and it is expected that at all cars will be reduced in the near future.

Notice to Gas Consumers

The gas office will remain open Monday, October 11, until 7 o'clock p. m. The following day, Tuesday, we will commence taking off a list of those who have not paid their gas bill, and on the morning of the 16th our man will start out cutting off all delinquents. You will bear in mind that there is a charge of \$1.00 for reconnection; that is when anyone is disconnected for non-payment of his gas bill. MACTHWAIT OIL & GAS COMPANY. 10-8-2td

BRUNKS COMEDIANS PLEASE LAST NIGHT

Last night Brunk's Comedians presented a most pleasing four-act comedy entitled "The Girl and the Scissorbill." The play was well received by a large and representative audience, which is as it should be, since this company is a bit above the average show in the delightful execution of its performances. Because of this, the discrimination in entertainment seeker is assured of finding the utmost satisfaction and enjoyment in attending this company's presentations. Their plays are picked to please and to borrow from the vernacular—they invariably "go over."

The between acts vaudeville is not merely thrown in to "fill in" and kill time, but it is given just as much care and attention as to its entertaining qualities as is the balance of the show—thus giving the final touch needed to lend an air of pleasing and substantial well-balance to the tone of the entire performance.

Tonight's play is entitled "The Call of the North," a four-act comedy-drama, taken from the novel of the same name written by Jack London. An additional feature will be a ladies' nail driving contest, and the show-going public will do well to visit the tent-theater on East Main and enjoy an evening

of real entertainment. Forget the cares of the day in the enjoyment of a play well presented. Let the pride of Brunk's Comedians, their band and jazz orchestra, put pep and the joy of living into your veins—and when you go home you'll know you've "been somewhere."

Normal Notes

Miss Aloise Adams gave several readings in assembly yesterday which were enjoyed by all the students. She will begin her work there immediately. Further announcement will be made later.

The Ada High and Holdenville will play a game of football on the normal grounds today. The normal team practiced this morning at 11.15.

Miss Ota Edwards is back again in school after several days absence on account of sickness.

The senior preps are planning an outing this afternoon. A good time is expected. All be sure and go.

NO LABOR SURPLUS REPORTED IN STATE

OKLAHOMA CITY.—A surplus of labor, reported in other parts of the country, does not exist in Oklahoma, Claud Connally, state commissioner of labor, states. The demand still exceeds the supply in the state, he says.

"From eastern states I have seen reports that there is a slight surplus of labor," Connally said. "The report is that there is not sufficient unemployment to cause suffering or unrest but that there are enough men out of work to make employers a bit more independent than they were this time last year."

"Figures of the state employment offices show such conditions do not exist here. Last week we had 1,139 requests for male help wanted and 800 registrations of men seeking work. We placed 678 men in jobs last week. In Oklahoma City, the most representative place in the state so far as labor conditions are concerned, we had 645 applications for unskilled positions."

"The supply of skilled help has been less than the demand for several years. Our need for cotton pickers will increase the number of available jobs. The surplus in the east is probably caused by immigration, which has not yet made itself felt here."

FIND BODY OF MAN DROWNED IN RIVER

HUGO.—The body of Brown Mauldin, who was drowned in Red River on Tuesday of last week, was found Friday afternoon about a mile from where he was last seen. Mr. Mauldin was an excellent swimmer and endeavored to swim from the McCurtain county side to get the ferry boat at Bryan's landing, who was on the Texas side, to ferry across and take a party over. A companion endeavored to persuade the deceased from attempting to swim Red River and that the ferryman would hear their call later.

A father, mother and one sister, who live in Red River county, Texas, and other relatives survive.

BIG CIRCUS COMING

Yankee Robinson Three Ring Circus—Largest in the World, Will Exhibit in Ada Oct. 9.

The Biggest Wild Animal circus in the world and the second largest show entourage, the original Yankee Robinson Three Ring Wild Animal circus, will exhibit here on October 9.

It is enough to justify anyone taking interest in this event, for in addition to the wild animal performances and the fact that the circus end of the show contains nothing else but the highest class acts, one act alone—that of twenty full grown African lions in the arena at one time, would more than repay one for a visit to this mammoth enterprise. Ten polar bears—more polar bears than with all other shows combined, are also exhibited in the wild animal numbers.

This show during the past five years has had a phenomenal growth and today makes all the principal cities of the country and during a particular season makes the principal county seats of each section of the country.

The big show travels in two and three sections, consists of forty cars, has nearly a thousand people and horses with the show and exhibit over one hundred wild animals in parade free. Don't fail to see the parade.

The Salvation Army in the western states provided 418,777 free meals and 117,871 free beds last year to men who were not able to pay. They were "down" but the S. A. proved they were not "out."

FERRIS PUTS HIS HEARERS ON RECORD NOW

By the News' Special Service:

McALESTER, Oct. 6.—Swinging into Pittsburg county from McIntosh where he was greeted by large and enthusiastic audiences yesterday, Scott Ferris, candidate for the United States senate, today resumed his offensive against the records of Senator Harding and Representative J. W. Harrelld, in speeches at Wio wa, Halleyville and McAlester.

At the finish of his indictment of Harrelld for the latter's vote to seat Victor Berger as a member of congress after the socialist leader had been convicted of treason to his country, Ferris polled his audience by saying: "I wish every

man and woman, no matter what their political affiliations, who would have voted as Mr. Harrelld voted on this question, would hold up their hands." Not a hand went up at either of the meetings. "I have polled thirty audiences, aggregating about 20,000 people, and only two have said that they would have followed Mr. Harrelld's example and voted to seat a man who was stabbing our boys in the back with his poison tipped sword of pro-German propaganda while they were fighting the enemy."

Ferris compared the records of Harding and Cox, quoting from the Congressional Record to prove that the former was at all times aligned with the big business interests and against the people.

A large part of the world's long staple cotton goes into automobile casings.

KERENSKY SPEAKS ON ENGLISH HOLIDAY

LONDON.—Alexander Kerensky, leader of the first Russian revolutionary government, has just concluded a short holiday here.

In statements to newspaper men he said he was of the opinion that bolshevism was dying a natural death in Russia, but he considered that support given to a dictator from outside would unite all classes of the population on the side of the soviet government.

Although he at one time made himself personally responsible for the safety of the Russian imperial family, Kerensky was reticent about his last meeting with the late emperor Nicholas. "I intend shortly to make an important announcement on this subject," he told the Evening Standard.

NASH SIX

A STATEMENT
Our policy has always been to give the consumer the best automobile and best truck we could build at the least possible cost. We have never asked a dollar more, simply because we could get it.
In view of the fact that there is no reduction today in the price of materials or labor entering into Nash products, and that there is no possibility of any reduction for some time to come, that can substantially affect manufacturing costs, the policy of The Nash Motors Company will be to absolutely maintain its present prices on both passenger cars and trucks to at least July 1st, 1921.

CW Nash

NASH PRICES CANNOT BE REDUCED BECAUSE THEY HAVE NEVER BEEN INFLATED

There will be no reduction in the price of the NASH SIX. We think it only fair to state our policy plainly in justice to present NASH SIX owners and those who contemplate purchasing this car.

NASH prices cannot be reduced because present prices represent the actual intrinsic value of the product plus a profit sufficient only to maintain manufacturing operations. This is a plain statement of facts.

We cannot buy the high grade materials used in the Nash Six any cheaper. We cannot buy the skilled labor employed in the making of NASH SIX any cheaper.

These two factors determine the price.

Consider this fact.

Since 1917, while prices of all commodities have been soaring, the price of the NASH SIX has risen only 31 per cent.

Considering the addition of cord tires and other equipment as standard equipment, the actual increase has been only 24 per cent.

During this time, the increased price of other motor cars show an average rise of 76 per cent.

The cost of living has risen 104 per cent.

"That the NASH SIX truly represents more actual value, and is a bigger and better automobile than any other car within hundreds of dollars of this price." You may purchase the NASH SIX with the assurance that today as always, you are buying a car of exceptional value.

Noted English Suffragist Is Now Touring America

Here To Give American Women Benefit of Their Experience in England.

Among the many radical militant suffragists in England, Mrs. Pethick Lawrence has always stood next to Mrs. Pankhurst as a leader and a martyr. She, too, like Mrs. Pankhurst, has served her share of time in English prisons and is famed wherever equal suffrage rights are discussed. American women are soon going to hear from Mrs. Lawrence, for she recently arrived in this country to talk woman suffrage.

This is not, however, her first visit to this country. She was here some few years ago in the interest of a women's international peace society. She is well known as a labor leader and for more than ten years has been treasurer of the Woman's Social and Political Union of England, the organization of which Mrs. Pankhurst is the head. She was editor of one of the largest suffrage papers in the world. At the recent elections Mrs. Lawrence had her name on the ballot as a candidate for an office, thus realizing the fullest responsibility and privilege of a woman voter.

Woman to Aid Governor Roberts. Because the re-election of Gov. A. H. Roberts of Tennessee is believed to have been endangered by his advocacy of the woman suffrage amendment, the women's bureau of the democratic national committee will give him special assistance. Miss Alice Meredith, one of the bureau's ablest speakers and organizers, has gone to Tennessee, with orders to remain in that state

as long as Governor Roberts desires.

Mrs. George Bass, head of the women's bureau, will go to Tennessee later in the week. An appeal will also be made to suffragists in the state, regardless of party, to support Governor Roberts for re-election.

Word received at democratic national headquarters is that Governor Roberts is facing unusually strong opposition. Information has been received that elements in the democratic party which were opposed to woman suffrage will knife Governor Roberts and support the republican nominee for governor.

"I think that the women of the country are under lasting obli-

AGE OF USED CARS IS OFTEN CONFUSED

An unusual service, in view of the fact that it is mentioned primarily for persons who do business with a competitor, has been announced by the Ada Motor company, Dodge Brothers dealers in this city. The service is for the benefit of those who buy used Dodge Brothers motor cars on the open market and who are in doubt as to the age and condition of the car.

"Any man who buys a used Dodge Brothers motor car, if he brings it to us for inspection, can learn definitely when the car was built," said Mr. Coleman of the Ada Motor company. "While we operate a used car market, ourselves we will gladly give this information because we feel that a man who owns a Dodge Brothers car is a member of the family, regardless of whether he comes in through the front or back door, and we owe him certain definite courtesies.

"Owing to the fact that Dodge Brothers cars are not built in series of models and never have shown any material change in appearance, it is often very difficult to determine just how old the car is. Therefore it is easy to make gross misrepresentation to prospective purchasers. Many a man has been told he is buying a 1919 Dodge Brothers car when in reality the car was built three or four years earlier. Unscrupulous persons occasionally resort to this practice deliberately, but very often it is done through error as persons outside our own organization have no accurate way of deciding this important point.

"Dodge Brothers have supplied us with complete records of production, so that we are enabled, through certain numbers on the car, to tell just when it was built. Therefore it is apparent that nobody is ever deceived on this point when he buys from our used car market. It is also our policy to overhaul every car we take in before putting it back on the market. We insist on having used cars in good condition before they are sold. This not only makes satisfied customers, but it tends to maintain the good reputation of Dodge Brothers motor cars.

"It would pay the public to be more careful in buying used cars. People should insist on the accurate information they are entitled to when buying. They should, above all, know just whom they are doing business with and try to determine whether their future good will and satisfaction means anything to the person they are buying from or whether immediate profit is the sole object of the deal. "Meanwhile we shall be glad to help along the cause of better used cars by giving purchasers the information that will enable them to tell whether they have been honestly dealt with."

The Pontotoc County Medical Ass'n. Meets In Ada Next Tuesday

The Pontotoc County Medical association will meet in this city next Tuesday, October 12, according to a statement made to a News reporter by Dr. J. G. Breco, secretary of the association this morning.

The meeting will be held at the Faust hospital and will be called to order at 2:30 in the afternoon by the president, Dr. L. M. Overton of Fitzhugh.

The secretary states that many matters of importance are on the slate for discussion at this meeting.

Let Tulsa Handle 'Em.

Unfortunately the man who believes in a bomb as a political weapon is not extinct, but the average man is willing to have a hand in hastening the day when he will be.—Bartlesville Examiner.

THE TOWN GOSSIP

HE WAS from Owl Creek.

AND HE came into the office.

AND PAID his subscription.

AND SAT down.

TO TALK for a few minutes.

AND WE started talking.

ABOUT POLITICS.

AND HE up and said.

"WHAT'S THIS business.

"ABOUT THE Senate Oligarchy.

"THAT MR. Cox.

"KEEPS TALKING about?"

AND I told him.

THAT I certainly thought.

THE FARMERS ought.

TO GET more.

FOR THEIR crops.

THAN WHAT they were getting.

AND HE listened respectfully.

UNTIL I got through.

AND THEN he said:

"WHAT DID you say.

"WAS THE meaning.

"OF THIS Senate Oligarchy?"

AND I explained to him.

THAT THE reduction.

IN THE price of automobiles.

WAS NOT at all unexpected.

AND THAT it was brought about

BY SEVERAL different things.

AND WENT on to explain.

WHAT THOSE things were.

AND HE didn't say a word.

UNTIL I got through.

AND THEN he said.

KIND OF gentle like:

"NOW WHAT was it.

"ABOUT THAT there oligarchy?"

AND ABOUT that time.

I FOUND out.

THAT THE lifotype operator.

WAS OUT of copy.

AND THAT I was needed.

BACK IN the press room.

AND THAT we only had.

A FEW minutes.

IN WHICH to make the mail.

AND I told him about it.

AND SAID I was glad to see him.

AND I hoped he would.

DROP IN again.

AND I hope he will.

BUT JUST the same.

I HOPE he won't.

UNTIL I get a chance.

TO FIND out.

ABOUT THAT oligarchy business.

I THANK you.

MAKING PLANS FOR HARDING'S RECEPTION

By News' Special Service

OKLAHOMA CITY, Oct. 8.—A parade of four sections, each representing one of the four corners of the state of Oklahoma, will make up the line of the Harding day parade to feature the welcome of the republican presidential nominee when he arrives here late tomorrow to make an address at the livestock pavilion at the state fair grounds tomorrow night. The route of the parade and final plans for entertaining Senator Harding were completed late yesterday.

A special train of six cars will bring Harding supporters here from Ponca City, republican headquarters announced. Tulsa county will likewise send a delegation and a band on a special train. It was said, while special trains from Carmen, Shawnee and probably Ardmore, also are expected. Fifty automobiles will bring supplies here from Muskogee and pick up other cars along the route, advices to headquarters recently declared.

Your Word is Law

We think every article we put up for sale is A-No. 1 in quality.

But, if for any reason it fails, we urge that you bring it at once to our attention.

If it doesn't meet your standards, it won't meet ours.

And incidently it's a whopping big concern that backs the tires we sell, and both make good. That's why we sell Firestone.

FARMERS WANT REGULAR REPORTS OF THE MARKETS

By the Associated Press

CHICAGO, Oct. 8.—Representatives of all farmer's organizations in the middle west met here today and announced that they would request monthly statistics of visible domestic and world's supply of livestock from the national bureau of crop estimate and market. This measure, they said, would aid in the prevention of the manipulation of prices. Farm bureaus, livestock shipping organizations and exchanges also were asked to consider the possibility of a revision from off selling weights to tract weights and the establishment of farmers co-operative commission firms at stock yards.

Big folks, little folks and young folks will have a hand in the program at the First Presbyterian church Sunday morning. Everybody cordially invited to attend. 10-8-1td

SUSPECT BOMB PLOT IN STATE OF KANSAS

By the Associated Press

HUTCHINSON, Kans., Oct. 8.—A bomb plot mystery engaged the attention of local authorities today, following the finding last night of a cylinder containing a powerful charge of explosive under the approach to the main street viaduct in the center of the city. Absence of threatening letters warning of an impending explosion and a close check recently which indicated the suppression of radical activities

here, put the police at a loss to understand the presence of the bomb.

Late today the police had no clue to work on other than the story told by boys who picked up the bomb, which Chief of Police Knowles declared contained sufficient explosive to destroy the viaduct, the convention hall and other nearby buildings, was picked up by boys and opened before it was turned over to the police. It contained a time device, but had several fuses attached.

Attend Sunday school at the First Presbyterian church October 10. Something different awaits you. 10-8-1td

Duofolds Save Room

Any room may be turned into a bed room upon a moment's notice if you have a Duofold as a part of your furnishings.

And you know how handy this would be at times—unexpected company arrives or sickness makes an extra bed necessary.

Our present showing of Duofolds in fumed or waxed Oak, upholstered in brown muleskin are both sightly and durable and our prices are very attractive.

Only \$60 and \$65

Let us quote prices on your complete home furnishings.
